Art Unit: 1796

All previous restriction and election requirements are withdrawn. Claims 1-24 and 26-33 are being examined. Claim 25 has been cancelled.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-24 and 26-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 neither  $N_b$  nor G are defined in terms of the numerical range intended. Further, the G of claim 1 appears to have a different meaning than the G of claim 2. These deficiencies render the claims indefinite for failing to define the metes and bounds of what applicants intend the invention to be.

Reference A is cited as of interest.
